(December 11, 2014) -- Couture Homes Limited (Couture Homes), the wholly owned subsidiary of CSI Properties Limited (Stock code: 497), is dedicated to foster a better and more harmonic community and contributes to community by sponsoring charitable and educational functions in Hong Kong. The World Green Organisation (WGO) is an independent non-governmental organisation concerned with environmental conservation and environmentally related livelihood and economic affairs. It provides a comprehensive approach to a fully integrated environmental solution that combines social, environmental and economic aspects. WGO also aims to enhance the quality of the environment, promote a green economy, and improve people’s livelihoods through science-based policy research and community projects. It will focus on social concerns of underprivileged groups and creating a green economy, to help realize its vision of sustainable development.

While Green Office Awards Labelling Scheme (GOALS) integrates Hong Kong business and social service sectors with the United Nations’ global initiatives, the programme also supports Hong Kong to become a low carbon city by assembling the key change agents – business corporations, social service organisations, professional associations and university students – to share experience and accelerate positive changes in office and retail environments through the execution of green practices. By joining the scheme, the corporates could enhance their image, save costs in long run and make contribution back to the society.

Mr. Jimmy Fong, Executive Director of CSI Properties Limited and Managing Director of Couture Homes Limited said, “We fully understand the impact of eco-measures on the sustainable development, it even improves quality of living standard, which is also one of the key direction of our company. It is our honor to be invited to sponsor WGO’s event and support green moves via such sponsorship.”
